

Child Protection and Safeguarding Policy

In line with Keeping Children Safe in Education 2016

This policy was updated on 1st September 2016

The policy must be reviewed and updated at least every 12 months.

Standlake CE Primary School recognises its responsibility for safeguarding and child protection.

PART 1

1. Introduction

This policy has been developed in accordance with the principles established by the Children Act 1989; and in line with the following:

- Keeping Children Safe in Education” 2016
- “Working Together to Safeguard Children 2015”
- “Framework for the Assessment of Children in Need and their Families” 2000
- “What to do if you are worried a Child is being Abused” 2015
- Oxfordshire Safeguarding Children Board guidelines

The Governing Body/management committee/proprietor takes seriously its responsibility under section 11 of the Children Act and duties under “working together” to safeguard and promote the welfare of children; to work together with other agencies to ensure adequate arrangements exist within our setting to identify, and support those children who are suffering harm or are likely to suffer harm.

We recognise that all staff and governors have a full and active part to play in protecting our pupils from harm, and that the child’s welfare is our paramount concern.

Our school should provide a safe, caring, positive and stimulating environment that promotes the social, physical and moral development of the individual child free from discrimination or bullying where children can learn and develop happily.

This policy applies to all staff, governors and volunteers working in our school.

This policy has been written in line with Keeping Children Safe In Education 2016 All staff will sign to confirm they have read and understood this policy.

2. Terminology

- **Safeguarding and promoting the welfare of children** refers to the process of protecting children from abuse or neglect, preventing the impairment of their health or development, ensuring that children grow up in circumstances consistent with the provision of safe and effective and nurturing care and undertaking that role so as to enable those children to have optimum life chances and to enter adulthood successfully.
- **Child protection** refers to the processes undertaken to meet statutory obligations laid out in the [Children Act 1989](#) and associated guidance (see [Working Together to Safeguard Children, An Interagency Guide to Safeguard and Promote the Welfare of Children](#)) in respect of those children who have been identified as suffering, or being at risk of suffering harm.

- **Staff** refers to all those working for or on behalf of the school, full time or part time, in either a paid or voluntary capacity.
- **Child** refers to all young people who have not yet reached their 18th birthday.
- **Parent** refers to birth parents and other adults who are in a parenting role, for example step-parents, foster carers and adoptive parents
- **DSL:** Designated Safeguarding Lead

3. Aims

- To provide all staff with the necessary information to enable them to meet their statutory responsibilities to promote and safeguard the wellbeing of children
- To ensure consistent good practice across the school
- To demonstrate the school's commitment with regard to safeguarding children

4. The role of school and college staff

Our School and college staff are particularly important as they are in a position to identify concerns early, provide help for children, and prevent concerns from escalating.

- **All our** school and college staff have a responsibility to provide a safe environment in which children can learn.
- Our school/college have a designated safeguarding lead who will provide support our staff members to carry out their safeguarding duties and who will liaise closely with other services such as children's social care.
- All our staff will be equipped to identify children who may benefit from early help. Staff know in the first instance to discuss their concerns with the designated safeguarding lead, and understand they may be required to support other agencies and professionals in assessments for early help.
- The Teachers' standards 2012 state that teachers, including headteachers, should safeguard children's wellbeing and maintain public interest in the teaching professions as part of their professional duties.

5. What school and college staff need to know

- All our staff members are aware of the systems within our school/college which support safeguarding, these are explained to them as part of their induction and include:
 - This child protection and safeguarding policy
 - The staff code of conduct (sometimes called staff behaviour policy)
 - The role of the designated lead
 - Keeping children safe in education part 1
 - Whistleblowing policy
 - Managing allegations about staff or volunteers
 - What to do if they have a concern about a child

- **All** staff members receive appropriate safeguarding and child protection training which is updated at least every 3 years. In addition to this training **all** staff members receive safeguarding and child protection updates, when required but at least annually, to provide them with relevant skills and knowledge to be able to safeguard the children in our setting effectively.

- **All** staff are made aware of the early help process, and understand their role in this. This includes staff being able to identify emerging problems, liaising with our designated safeguarding lead, sharing information with other professionals to support early identification and assessment and, in some cases, where appropriate, acting as the lead professional in undertaking any early help assessment.

- **All** staff are aware of the process for making child protection referrals to social care and statutory assessments that may follow, under the Children Act 1989, they also understand the role that may have to play in such assessments.

- **All** staff know what to do if a child tells them he/she is being abused or neglected. Staff understand how to maintain an appropriate level of confidentiality, whilst at the same time understand the requirement around sharing information appropriately with the designated safeguarding lead and other relevant professionals

- Staff will never promise a child that they will not tell anyone about the allegation/disclosure that the child has made, as this may ultimately not be in the best interests of the child

6. What school and college staff should look out for

- **All** school and college staff members are aware of the signs of abuse and neglect so they are able to identify children who may be in need of help or protection (see part 2 of this policy for the definitions)

- Departmental advice: What to do if you are worried a child is being abused- Advice for practitioners provides more information on understanding and

identifying abuse and neglect.

<https://www.gov.uk/government/publications/what-to-do-if-youre-worried-a-child-is-being-abused--2>

- Staff members at our school are advised to maintain an attitude at all times of **“it could happen here”** where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the **best** interests of the child.
- Knowing what to look for is vital to the early identification of abuse and neglect. If staff members are unsure they should always speak to the designated safeguarding lead.

7. What school and college staff should do if they have concerns about a child

- If staff members have any **concerns** about a child (as opposed to a child being in immediate danger) they will need to decide what action to take. Where possible, there should be a conversation with the DSL to agree a course of action, although any staff member can make a referral to children’s social care. Other options could include referral to specialist services or early help services and should be made in accordance with the referral threshold set by the Oxfordshire Safeguarding Children Board. <http://www.oscb.org.uk/>
- If anyone other than the designated safeguarding lead makes the referral they should inform the designated safeguarding lead, as soon as possible.
- If after a referral the child’s situation does not appear to be improving the DSL (or the person that made the referral) should press for re-consideration to ensure their concerns have been addressed and, most importantly, that the child’s situation improves.
- If early help is appropriate the designated safeguarding lead should support the staff member in liaising with other agencies and setting up an inter-agency assessment as appropriate.
- If early help and or other support is appropriate the case should be kept under constant review and consideration given to a referral to children’s social care if the child’s situation doesn’t appear to be improving.
- If a teacher, in the course of their work in the profession, discovers that an act of Female Genital Mutilation appears to have been carried out on a girl under the age of 18 the teacher must report this to the police.

8. What schools and college staff should do if a child is in danger or at risk of harm

- **If a child is in immediate danger or is at risk of harm a referral should be made to children's social care and/or the police immediately.** Anyone can make a referral. Where referrals are not made by the DSL, the DSL should be informed, as soon as possible, that a referral has been made.

9. What school and college staff should do if they have concerns about another staff member

- If our staff members have concerns about another staff member then this must be referred to the headteacher or principal. Where there are concerns about the headteacher or principal this should be referred to the chair of governors, chair of the management committee or proprietor of an independent school as appropriate. In the event of allegations of abuse being made against the headteacher, where the headteacher is also the sole proprietor of an independent school, allegations should be reported directly to the designated officer(s) at the local authority. Staff may consider discussing any concerns with the school's designated safeguarding lead and make any referral via them. Full details can be found in Part 2 of this guidance.

10. What school and college staff should do if they have concerns about safeguarding practices within the school or college

- All our staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures in the school or college's safeguarding regime and that such concerns will be taken seriously by the senior leadership team.
- Appropriate whistleblowing procedures, which are suitably reflected in staff training and staff behaviour policies, should be in place for such concerns to be raised with the school or college's senior leadership team.
- Where a staff member feels unable to raise an issue with their employer or feels that their genuine concerns are not being addressed, other whistleblowing channels may be open to them:
 - General guidance can be found at- Advice on whistleblowing
 - The NSPCC whistleblowing helpline is available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call: 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and Email: help@nspcc.org.uk

PART 2

11. Key personnel at our school:

The **designated senior person** for child protection in this school is:

Andrew Denham

Contact details:

Head.3127@standlake.oxon.sch.uk

The **deputy designated person** in this school is:

Stacey Conroy

Contact details:

sconroy@standlake.oxon.sch.uk

The **nominated child protection governor** for this school is:

Louise Weldon

Contact details:

Tel: 01865 300566 email: lweld9285@standlake.oxon.sch.uk

The Headteacher is:

Andrew Denham

Contact details:

Head.3127@standlake.oxon.sch.uk

12. Roles and responsibilities

All schools must nominate a senior member of staff to coordinate child protection arrangements and this person is named in this policy guidance. The school ensures that the designated safeguarding lead or a deputy will be on site at all times that the school is functioning.

The governing body

The Governing Body/Proprietor of Standlake School undertake the regular review of safeguarding related policies and procedures that operate in our school.

The governing Body/Proprietor have a crucial role in monitoring and challenging staff on the effectiveness of safeguarding arrangements

Our Governing body ensure that:

- A DSL for safeguarding and child protection who is a member of the senior leadership team and who has undertaken the approved LSCB training in inter-agency working, in addition to basic child protection training
- Child protection policy and procedures that are consistent with LSCB requirements, reviewed annually and made available to parents on request
- Procedures for dealing with allegations of abuse made against members of staff including allegations made against the head teacher
- Safer recruitment procedures that include the requirement for appropriate checks in line with national guidance
- A training strategy that ensures all staff, including the head teacher, receive child protection training, with refresher training at three-yearly intervals. The DSL should receive refresher training at two-yearly intervals
- Regular update sessions for staff regarding safeguarding. Keeping staff up to date with any changes and ensuring that safeguarding remains a priority within the setting
- Arrangements to ensure that all temporary staff and volunteers are made aware of the school's arrangements for child protection.
- The governing body nominates a member (normally the chair) to be responsible for liaising with the local authority and other agencies in the event of an allegation being made against the head teacher. An annual

report will be submitted to the local authority about how the governing body's duties have been carried out. Any weaknesses or areas of concern will be rectified without delay.

The head teacher:

- Ensures that the safeguarding and child protection policy and procedures are implemented and followed by all staff
- Allocates sufficient time and resources to enable the DSL and deputy to carry out their roles effectively, including the assessment of pupils and attendance at strategy discussions and other necessary meetings
- Ensures that all staff feel able to raise concerns about poor or unsafe practice and that such concerns are handled sensitively and in accordance with the school's whistle blowing procedures
- Ensures that child's safety and welfare is addressed through the curriculum.

The school has ensured that the DSL:

- Is appropriately trained.
- Acts as a source of support and expertise to the school community
- Has an understanding of OSCB procedures.
- Keeps written records of all concerns when noted and reported by staff or when disclosed by a child, ensuring that such records are stored securely and reported onward in accordance with this policy guidance, but kept separately from the child's general file.
- Refers cases of suspected neglect and/or abuse to children's social care or police in accordance with this guidance and local procedure.
- Notifies children's social care if a child with a child protection plan is absent for more than two days without explanation
- Ensures that when a child with a child protection plan leaves the school, their information is passed to their new school and the child's social worker is informed
- Attends and/or contributes to child protection conferences in accordance with local procedure and guidance
- Coordinates the school's contribution to child protection plans.
- Develops effective links with relevant statutory and voluntary agencies

- Ensures that all staff sign to indicate that they have read and understood this policy
- Ensures that the child protection policy is updated annually
- Liaises with the nominated governor and head teacher (where the role is not carried out by the head teacher) as appropriate
- Keeps a record of staff attendance at child protection training
- Provides an annual safeguarding report to governors which is sent to the LADO/Safeguarding team at County Hall no later than the December of the academic year, following the academic year to which the report applies.
- Makes this policy available to parents.

Deputy DSL(s)

Is appropriately trained and, in the absence of the designated safeguarding lead, carries out those functions necessary to ensure the ongoing safety and protection of children. In the event of the long-term absence of the designated person, the deputy will assume all of the functions above.

All staff will:

Follow the Oxfordshire Safeguarding Children Board Procedures/Local Authority guidance in all cases of abuse, or suspected abuse (these can be found at www.OSCB.org.uk).

We will therefore:

- Implement and follow part 1 of this guidance
- Understand that our responsibility to safeguard children requires that we all appropriately share any concerns that we may have about children.
- Support the child's development in ways that will foster security, confidence and resilience
- Provide an environment in which children and young people feel safe, secure, valued and respected, feel confident and know how to approach adults if they are in difficulties.
- Provide a systematic means of monitoring children known or thought to be at risk of harm, and ensure we contribute to assessments of need and support plans for those children where appropriate.

- Ensure that detailed and accurate written records of concerns about a child are kept even if there is no need to make an immediate referral. See guidance on record keeping:
 - http://portal.oxfordshire.gov.uk/content/public/CYPF/schools/behaviour_attendance/safeguarding_child_protection/Keeping_Child_Protection_Records.doc

13. Supporting Children

- We recognise that a child who is abused, who witnesses violence or who lives in a violent environment may feel helpless and humiliated, may blame him/herself, and find it difficult to develop and maintain a sense of self-worth.
- We accept that research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn.

Our school will support all children and young people by:

- Encouraging the development of self-esteem and resilience in every aspect of life.
- Promoting a caring, safe and positive environment.
- Liaising and working together with all other support services and those agencies involved in the safeguarding of children.
- Notifying Social Care as soon as there is a significant concern.
- Notifying Social Care when a child/young person attending the centre is privately fostered.
- Providing continuing support to a pupil (about whom there have been concerns) who leaves the school by ensuring that such concerns and school medical records are forwarded under confidential cover to the Designated Person at the pupil's new school immediately.

14. Confidentiality

- We recognise that all matters relating to child protection are confidential.
- The Designated Person will disclose personal information about a child or young person to other members of staff on a need to know basis only.
- However, all staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children.

- All staff must be aware that they cannot promise a child to keep secrets which might compromise the child's safety or well-being or that of another.
- We will always undertake to share our intention to refer a child to Social Care with their parents /carers unless to do so could put the child at greater risk of harm, or impede a criminal investigation. If in doubt, we will consult with the Schools Safeguarding Team or Social Care on this point.
- We will take 'no names' consultation with our local Assessment Teams / MASH team to discuss concerns we may have, but we understand that if they then ask for a name we will disclose those details and it will become a referral.

15. Supporting Staff

- We recognise that staff working in the school who have become involved with a child who has suffered harm, or appears to be likely to suffer harm may find the situation stressful and upsetting.
- We will support such staff by providing an opportunity to talk through their anxieties with the Designated Person and to seek further support. This could be provided by another trusted colleague, Occupational Health, and/or a representative of a professional body or trade union, as appropriate.
- In consultation with all staff, we have adopted a code of conduct for staff at our setting. This forms part of staff induction and is in the staff handbook. We understand that staff should have access to advice on the boundaries of appropriate behaviour.
- We recognise that our Designated Person(s) should have access to support and appropriate workshops, courses or meetings as organised by the LA.

16. Allegations against staff

- All staff should take care not to place themselves in a vulnerable position with a child. It is always advisable for interviews or work with individual children or parents to be conducted in view of other adults.
- We understand that a child or young person may make an allegation against a member of staff. If such an allegation is made, the member of staff receiving the allegation will immediately inform the centre manager or the most senior member of staff available.
- The manager on all such occasions will discuss the content of the allegation with the Designated Officer for the Local Authority (LADO), **before taking any action.** In our county contact should be made with
 - Alison Beasley, Interim Designated Officer (01865 815956),

- Donna Crozier, Assistant Designated Officer (01865 816382).
- LADO team 01865 810603 or
- Lado.safeguardingchildren@oxfordshire.gov.uk
- If the allegation made to a member of staff concerns the manager themselves, the person receiving the allegation will immediately inform the Chair of the governing body who will consult with LADO, without notifying the manager first.
- The school will follow the procedures for managing allegations against staff, as outlined in keeping children safe in education 2016.
- Suspension of the member of staff against whom an allegation has been made needs careful consideration, and we will consult with LADO and HR.
- Our lettings agreement for other users requires that the organiser will follow LA procedures for managing allegations against staff and, where necessary, the suspension of adults from premises.
- See flowchart appendix B

17. Whistleblowing

- We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so.
- All staff should be aware of their duty to raise concerns about the attitude or actions of colleagues and appropriate advice will be sought from the LADO or Safeguarding Team where necessary.
- See full details in our Whistleblowing policy

18. Physical Intervention/Positive Handling

- Our policy on physical intervention/positive handling by staff is set out separately, as part of our Behaviour Policy. It complies with LA Guidance, 'The Use of Force to Control or Restrain Pupils' 2010. Such events should be recorded and signed by a witness. We recommend that staff who are likely to need to use physical intervention should be appropriately trained.
- We understand that physical intervention of a nature which is both unreasonable and disproportionate to the circumstances and or causes injury or distress to a child may be considered under child protection or disciplinary procedures.
- See full details in our physical intervention policy

19. Anti-Bullying

- Our policy on the prevention and management of bullying is set out in a separate policy and acknowledges that to allow or condone bullying may lead to consideration under child protection procedures. Bullying is a safeguarding matter that if left unresolved can become a child protection matter. Our setting will take seriously any bullying concerns and both investigate and take action to protect pupils where appropriate.
- We will liaise with the anti-bullying co-ordinator from OCC where appropriate <http://schools.oxfordshire.gov.uk/cms/content/anti-bullying>
- See full details in our anti-bullying policy

20. Health & Safety

- Our Health & Safety policy, reflects the consideration we give to the protection of our children both physically within the school environment and, for example, in relation to internet use, and when away from the school when undertaking school trips and visits.
- See full details in our health and safety policy

21. Children with Special Educational Needs

At our setting we recognise that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. This policy reflects the fact that additional barriers can exist when recognising abuse and neglect in this group of children. This can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- children with SEN and disabilities can be disproportionately impacted by things like bullying- without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

22. Types of abuse and neglect

All school and college staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

- **Abuse:** a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the internet). They may be abused by an adult or adults or another child or children.
- **Physical abuse:** a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.
- **Emotional abuse:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.
- **Sexual abuse:** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.
- **Neglect:** the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

23. Specific safeguarding issues

- **All** staff have an awareness of safeguarding issues- some of which are listed below. Staff are made aware that behaviours linked to the likes of drug taking, alcohol abuse, truanting and sexting put children in danger.
- **All** staff are made aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but not limited to: bullying (including cyber bullying), gender based violence/sexual assaults and sexting. Staff are made clear of our policy and procedures with regards to peer on peer abuse.

Annex A contains important additional information about specific forms of abuse and safeguarding issues.

24. Online safety

At our setting our pupils increasingly work online, we recognise that it is crucial to safeguard our pupils from potentially harmful and inappropriate online material. As such we ensure appropriate filters and appropriate monitoring systems are in place.

25. Opportunities to teach safeguarding

In our setting we ensure our pupil are taught about safeguarding, including online, through teaching and learning opportunities, as part of providing a broad and balanced curriculum. This may include covering relevant issues through personal, social, health and economic education (PSHE), tutorials (in FE colleges) and/or – for maintained schools and colleges – through sex and relationship education (SRE).

26. Allegations of abuse made against other children (peer on peer abuse)

Our staff recognise that children are capable of abusing their peers. In a situation where child abuse is alleged to have been carried out by another child, our child protection procedures should be adhered to for both the victim and the alleged abuser; this means it should be considered as a child care and protection issue for both children.

Peer on peer abuse can take many forms, and gender issues can be prevalent when dealing with this type of abuse this could for example include girls being sexually touched/assaulted or boys being subject to initiation/hazing type violence.

See our full Managing allegations against other pupils policy

27. Dealing with Disclosures

**If a student asks to speak to you about a problem do not
promise confidentiality but explain that it may be necessary
to consult a colleague.**

Receive

Always stop and listen straight away to someone who wants to tell you about incidents or suspicions of abuse. Listen quietly and actively, giving your undivided attention. Allow silences when needed. Do not show shock or disbelief but take what is said seriously.

Reassure

Stay calm, no judgements, empathise. **Never make a promise that you can keep what a child has said a secret.** Give reassurance that only those who need to know will be told. Reassure the young person that they were right to tell you.

React

React to the student only as far as is necessary for you to establish whether or not you need to refer this matter, but don't interrogate for full details.

Don't ask leading questions – keep the open questions e.g. 'is there anything else you want to say?'

Do not criticize the perpetrator; the student may have affection for him/her.

Explain what you will do next – inform designated teacher, keep in contact.

Record

If possible make brief notes about what they are actually telling you at the time. Keep these notes, however rough they are. If you are unable to make notes at the time write down what was said as soon as you can on the Disclosure / Incident / Child Protection Concerns Notification Form that is on the Safeguarding Board in the staff room.

Try to record what was actually said by the student rather than your interpretation of what they are telling you.

Record the date, time, place and any noticeable nonverbal behaviour.

Report

Report the incident to the designated teacher and do not tell any other adults or students what you have been told.

Never attempt to carry out an investigation of suspected abuse by interviewing the young person or any others involved. This is a highly skilled role and any attempts by yourself could affect possible criminal proceedings.

28. Record Keeping

The designated teachers for child protection are responsible for ensuring that the necessary paperwork is completed and sent to the relevant people and stored in a safe and confidential place. This means that the records will be a coherent factual record of the concerns that are stored on individual children in a clear chronological order.

Annex A

Child sexual exploitation (CSE)

The sexual exploitation of children and young people under 18 involves exploitative situations, contexts and relationships where young people, (or a third person or persons) receive something, (e.g. food, accommodation, drugs, alcohol, cigarettes, affections, gifts, money) as a result of them performing and/or others performing on them, sexual activities. Child sexual exploitation can occur through the use of technology without the child's immediate recognition; for example being persuaded to post sexual images on the internet/mobile phones without immediate payment or gain. In all cases those exploiting the child/young person have power over them by virtue of their age, gender, intellect, physical strength and/or economic or other resources. Violence, coercion and intimidations are common, involvement in exploitative relationships being characterised in the main by the child's or young person's limited availability of choice, resulting from their social/economic and/or emotional vulnerability. (DCSF 2009).

Key Facts about CSE

- Sexual exploitation often starts around the age of 10 years old. Girls are usually targeted from age 10 and boys from age 8.
- It affects both girls and boys and can happen in all communities.
- Any person can be targeted but there are some particularly vulnerable groups: Looked after Children, Children Leaving Care and Children with Disabilities.
- Victims of CSE may also be trafficked (locally, nationally and internationally).
- Over 70% of adults involved in prostitution were sexually exploited as children or teenagers.

Sexual violence or abuse against children represents a major public health and social welfare problem within UK society, affecting 16% of children under 16. That is approximately 2 million children.

If a child or young person has made a disclosure regarding sexual exploitation or if you think a child may be at risk of being sexually exploited, please contact the Kingfisher Team on 01865 309196. Out of hours calls to this number will be diverted to the Thames Valley Police Referral Centre.

Good practice – Individuals

- Recognise the symptoms and distinguish them from other forms of abuse
- Treat the child/young person as a victim of abuse
- Understand the perspective / behaviour of the child/young person and be patient with them
- Help the child/young person to recognise that they are being exploited
- Collate as much information as possible
- Share information with other agencies and seek advice / refer to Social Care

Good practice – Organisations

- Ensure robust safeguarding policies and procedures are in place which cover CSE
- Promote and engage in effective multi-agency working to prevent abuse
- Work to help victims move out of exploitation
- Cooperate to enable successful investigations and prosecutions of perpetrators

Female Genital Mutilation (FGM)

Some indications that **FGM may have taken place** include:

- The family comes from a community that is known to practice FGM, especially if there are elderly women present in the extended family;
- A girl / young woman may spend time out of the classroom or from other activities, with bladder or menstrual problems;
- A long absence from school or in the school holidays could be an indication that a girl / young woman has recently undergone an FGM procedure, particularly if there are behavioural changes on her
- A girl / young woman requiring to be excused from physical exercise lessons without the support of her GP;
- A girl / young woman may ask for help, either directly or indirectly;
- A girl / young woman who is suffering emotional / psychological effects of undergoing FGM, for example withdrawal or depression;

Some indications that **FGM may be about to take place** include:

- A conversation with a girl / young woman where they may refer to FGM, either in relation to themselves or another female family member or friend;
- A girl / young woman requesting help to prevent it happening;
- A girl / young woman expressing anxiety about a 'special procedure' or a 'special occasion' which may include discussion of a holiday to their country of origin;
- A boy may also indicate some concern about his sister or other female relative.

Action to Take if Staff Believe a Child is at Risk of FGM

Any information or concern that a girl / young woman is at risk of, or has undergone FGM should result in an immediate discussion with one of the designated leads or another member of the CMG. The staff member should record any information on the Schools Concern Record Sheet. It is a legal obligation to report concerns and failure to do so could result in an individual's prosecution as well as disciplinary action by the school. FGM places a girl / young woman at risk of significant harm and will therefore be initially investigated under Section 47 of the Children Act 1989 by Children's Social Care and the Child

Forced marriages (FM)

FM is now a specific offence under s121 of the Anti-Social Behaviour, Crime and Policing Act 2014 that came into force on 16 June 2014.

A FM is a marriage conducted without the valid consent of one or both parties, and where duress is a factor. Forced marriage is when someone faces physical pressure to marry (e.g. threats, physical violence or sexual violence) or emotional and psychological pressure (e.g. if someone is made to feel like they're bringing shame on their family). This is very different to an arranged marriage where both parties give consent.

FM is illegal in England and Wales. This includes:

- taking someone overseas to force them to marry (whether or not the forced marriage takes place)
- marrying someone who lacks the mental capacity to consent to the marriage (whether they're pressured to or not)

'PREVENT' responsibility

The Counter Terrorism & Security Act 2015

The Act places a Prevent duty on specified schools to have "due regard to the need to prevent people from being drawn into terrorism". The education and childcare specified authorities in Schedule 6 to the Act are as follows:

- The proprietors of maintained schools, non-maintained special schools, maintained nursery schools, independent schools (including academies and free schools) and alternative provision academies, PRUs, registered early years providers, registered late years providers and some holiday schemes.

Schools/settings subject to the Prevent Duty will be expected to demonstrate activity in the following areas –

- Assessing the risk of children being drawn into terrorism
- Demonstrate that they are protecting children and young people from being drawn into terrorism by having robust safeguarding policies.
- Ensure that their safeguarding arrangements take into account the policies and procedures of the Local Safeguarding Children Board.
- Make sure that staff have training that gives them the knowledge and confidence to identify children at risk of being drawn into terrorism, and to challenge extremist ideas which can be used to legitimise terrorism
- Expected to ensure children are safe from terrorist and extremist material when accessing the internet in school

The government definition of extremism in its 'Prevent Strategy' is:

'Vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and

beliefs; and/or calls for the death of members of our armed forces, whether in this country or overseas.'

Staff at the school are expected to encourage children to verbalise their innermost thoughts and feelings, to tolerate what is said, to strive to understand the motivations and then to respond rather than react. In doing this work, we aim for children to feel that they are truly listened to and understood and we can then help them begin to understand and see the impact that they have on others. This, combined with all the other elements of school life, generates within individuals the capacity and tolerance that the Government's Prevent Strategy seeks to protect.

It is important that staff are alert to children expressing views that may not be an articulation of some inner rage or confusion but instead is an indication of passive or active exposure to radical ideologies.

The assumption should not necessarily be that the child is being groomed for radicalisation. They may have heard concerned discussion, they may have seen or heard mainstream news, they may have been in the company of impressionable or radicalised elders or they may be being targeted.

The task of any staff member whose suspicions are aroused is similar to that when any Safeguarding issue arises. Namely to –

- Listen and clarify
- Not ask leading questions
- Record
- Report

The Designated Leads (or a suitable colleague) will liaise with professionals from the child's Local Authority and Oxfordshire to discuss concerns and make referrals to a designated Channel Police Officer if necessary.

Any following work needs to be thoughtful and coordinated with internal and external colleagues.

Exposure to extremism materials and influences can lead to poor outcomes and will be addressed as a safeguarding concern as set out in this document. We acknowledge that if we fail to challenge extremist views we are failing to protect our pupils, and tackling extremism comes under the remit of our Designated Child Protection Officers.

We are aware that children can be exposed to extremist influences or prejudiced views from early childhood through a variety of sources and media, and that they may at times reflect or display views which may be discriminatory, prejudiced or extremist, or use offensive language.

Any discrimination, prejudice or extremist views, including offensive language, shown by pupils or staff will be dealt with in line with our Behaviour Policy and staff codes of conduct.

Peer on Peer

There is an established ethos of respect, friendship, courtesy and kindness. The school seeks to educate all pupils on healthy relationships through the curriculum, however we recognise that despite this we need to be alert to peer on peer abuse.

It is important to recognise that children do engage in sexual play and experimenting, which is usually age appropriate. However, it is important that no individual makes the decision alone to determine where on the spectrum between exploration and curiosity to abuse any incident lies. All incidents of a sexual nature must be recorded on school systems and reported to the Designated Lead.

The presence of one or more of the following points in situations where there has been sexual activity between children should always trigger some concern:

- There is an age difference of two years or more between the children
- One of the children is significantly more dominant than the other
- One of the children is significantly more vulnerable than the other e.g. in terms of disability, confidence, physical strength
- There has been some use of threats, bribes or coercion to secure compliance or to maintain secrecy

Where a concern regarding peer on peer abuse has been disclosed to the DSL(s), the information will be passed on to the child's Local Authority and discussions will take place as to what actions are required. Where it is clear a crime has been committed or there is a risk of crime being committed the Police will be contacted.

Working with external agencies there will usually be an school response to the unacceptable behaviour, for example, if a pupil's behaviour negatively impacts on the safety and welfare of other pupils then safeguards will be put in place to promote the well-being of the pupils affected, the victim and perpetrator will be provided with support to prevent any reoccurrence of improper behaviour. These measures will be reflected in updates to each child's Risk Assessment.

Sexting in schools

There are a number of definitions of 'sexting' but for the purposes of this policy sexting is simply defined as: Images or videos generated by children under the age of 18, or of children under the age of 18 that are of a sexual nature or are indecent. These images are shared between young people and/or adults via a mobile phone, handheld device, computer, 'tablet' or website with people they may not even know. Within Standlake School, sexting will be expected to follow the school's usual Safeguarding procedures and staff should record and report incidents and concerns and alert the Designated Leads as soon as possible.

Never...

- Search a mobile device even in response to an allegation or disclosure if this is likely to cause additional stress to the student/young person UNLESS there is clear evidence to suggest not to do so would impede a police inquiry.
- Print out any material for evidence
- Move any material from one storage device to another

Always...

- Inform and involve the Designated Safeguarding Lead who is able to take any necessary strategic decisions.
- Confiscate and secure the device(s).
- Close down or switch the device off as soon as possible. This may prevent anyone removing evidence 'remotely'.
- Record the incident.
- Act in accordance with school safeguarding search and confiscation policies and procedures

Never...

- View the image unless there is a clear reason to do so or view it without an additional adult present (this additional person does not need to view the image and certainly should not do so if they are of a different gender to the person whose image has been shared). The viewing of an image should only be done to establish that there has been an incident which requires further action.
- Send, share or save the image anywhere
- View the image outside of the protocols in the school's safeguarding and child protection policies and procedures.

Other staff may need to be informed of incidents and should be prepared to act if the issue is continued or referred to by other students. The school and parents should be on high alert, challenging behaviour and ensuring that the victim is well cared for and protected. The childrens' parents/carers should usually be told what has happened so that they can keep a watchful eye over the young person especially when they are online at home.

Annex B

Allegation flowchart

If you have a concern that a person who works with children and young people may have behaved inappropriately or you have received information that may constitute an allegation you must:

Please note JEM: Joint Evaluation Meeting

Staff have concerns about a child or young person

referral not required, setting takes relevant action, possibly including early help and monitors in house

referral made if concerns escalate

DSL or (staff member) make referral to social care/police

Social care makes a decision on how to progress the referral and the type of response required

Child in need of immediate protection (referrer informed)

Section 47 enquiry (referrer informed)

Section 17 enquiry (referrer informed)

No further action required (referrer informed)

Appropriate emergency action taken by police or social care

Identify child at risk of significant harm, will proceed to initial child protection plan (ICPC)

Identify child in need, offer appropriate support to child and family

Setting consider early help assessment, working with other universal services (consider CAF)

At all stages, staff should keep the child's best interests at the forefront of any decisions. The child's circumstances should be kept under review, and re-referrals should be made where appropriate.
