To know the place value of numbers to 10 millions and decimals to thousandths
To know number facts including times tables up to $12 \times 12$ To know a range of methods to use to calculate accurately To know the relationship between fractions, decimals and percentages
To know the units used to measure lengths, mass and capacity
To know the names of shapes and their properties
To know mathematical vocabulary related to all areas of the curriculum

## MATHS

 CURRICULUM INTENTDevelop fluency in working with number including fractions and decimals Reason by thinking through problems logically Solve a range of problems by applying mathematical skills
Calculate efficiently using the four operations Measure lengths, mass and capacity accurately Tell the time
Read and interpret data represent in a range of ways

## CULTURAL CAPITAL

A secure understanding of maths and number are vital in the wider world. A knowledge of money and decimals ensures that children are able to negotiate the environment of financial literacy.
In many areas of employment, data handling - such as interpreting graphs and tables-is required. The use of ICT in doing so develops children's computer skills, which are also necessary in many workplaces.
Careers in science, technology and engineering are also rooted in a secure understanding of maths.
Maths also allows us to communicate more effectively, as we learn to communicate through symbols and diagrams.

## EXPERIENCES

Global \& National Events:
Maths week England
50 Things to do:
Ching Ching, Sweet Charity

## Trips:

Science Oxford, Village Shop

Roots that Strengthen: The children's fluency and understanding of number, place value and basic use of the four operations.

Branches that Reach: Children being able to apply their understanding of number and reason with it, whilst also developing other areas of maths such as statistics, geometry and fractions.

Fruit that Flourishes: Children's confidence in using and manipulating number, choosing from a range of methods to calculate efficiently and solve a range of word problems.

We monitor \& support the teaching through:
